## About me

### A'lamov Asadbek

Hello! I'm Asadbek, a 20-year-old Frontend and Python developer. With 1 year of experience in Frontend development, I'm passionate about creating innovative solutions and delivering high-quality user experiences. I also work with Python to build efficient and scalable applications.

## Work experience — 1 year

January 2023 —  
December 2023  
1 year

### EMEHHMON

#### Frontend-разработчик

I worked as a Frontend Developer at EMEHHMON, where I contributed to various web projects. My main responsibility was to develop high-quality and efficient frontend code to enhance user interfaces (UI) and user experiences (UX).

Throughout the projects, I worked with technologies such as HTML, CSS, and JavaScript (including modern libraries like React.js) to create responsive and interactive web pages. I translated design and functional requirements into scalable and user-friendly solutions.

I collaborated closely with the team, managing code through Git and other version control systems to deliver fast and quality solutions. I also participated in code review, refactoring, and optimization processes to ensure the highest code quality.

I left the company at the beginning of 2024 to explore new opportunities.

## Education

### Incomplete higher

2024	<b>Najot Ta'lim</b> Backend, Python developer
2022	<b>PDP IT ACADEMY</b> Frontend developer

## Professional development, courses

2021	<b>HTML</b> SOLOLEARN, HTML developer
